### **DETAILED ACTION**

This office action is in response to the amendment filed January 19, 2005.

#### ***Response to Amendment***

The limitations added to claim 1 are sufficient to overcome the Shima et al. (US 4,946,802) and Bridges et al. (US 4,764,246) references either alone or in combination. Therefore, the rejections of claims 1 and 2 under 35 U.S.C. 103(a) are hereby withdrawn.

#### ***Allowable Subject Matter***

Claims 1 and 2 are allowed.

The following is an examiner's statement of reasons for allowance:

The primary reasons for the allowance of claims 1 and 2 is the inclusion therein, in combination as currently claimed, of the limitations of forming a projection-like dummy portion in a center of a square at four corners of which optical elements are arranged and forming a layer by vapor-phase epitaxy to bury a portion between the optical elements and the dummy portion. These limitations were found in claims 1-2 and are neither disclosed nor taught by the prior art of record, alone or in combination. The dummy portion of Shima is not projection-like, as recited in claim 1, but is instead a trench.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
